

Navigating through the last year has been hard for our church family, both individually and collectively. As we find our way forward, we must remember that the lives of many have been impacted in unseen ways that will have long-lasting effects, some physical, some emotional, and some spiritual. As a church, we endeavor to move forward together thoughtfully and respectfully. We intend to extend grace, patience, and love to all, no matter their COVID experience, vaccine status, masking practices, or comfort level.

**Masks are optional for those  
who are fully vaccinated.**

**We continue to encourage all  
individuals who are unvaccinated  
to wear masks.**

# Summer Singing!

## Indoor Worship

We will gradually introduce congregational singing at the end of the worship services. We understand that some individuals may wish to mask up or leave the sanctuary depending on their comfort level.

## Outdoor Worship

We will be singing at all outdoor worship services.
